

Customer Support Playbook

Fast, human responses that protect the customer experience and the brand.

WORKBOOK | **WRITE DIRECTLY IN THIS PDF OR PRINT IT**

Response standard

- Acknowledge the issue in the first sentence.

- State the action you are taking and when the customer will hear back.

- Never promise a timeline you cannot control.

Common macros

- Order update: confirm status, tracking and next check-in.

- Damaged item: request evidence, explain replacement or refund path.

- Refund request: restate policy, review order and provide next step.

Escalation

- Flag safety, fraud, chargeback or supplier issues same day.

- Save order details, customer communication and evidence.

- Record the root cause and change the process if needed.

FOUNDER NOTE

Evidence first. Make the smallest useful decision. Then run the next controlled test.
